To All at Cabinco Structures Limited

We write to thank you for the fabulous building you have created for our Pre-school. We all knew that achieving our new premises within the timescales specified by the Government was going to be an extremely big ask but Gary and the team facilitated our beautiful, bespoke building in a professional and accommodating manner. Right from the design of the build through to the final hand over nothing was too much trouble and requests for changes and additions incorporated without question.

For a committee of novices to the building business the turnkey option for our build was invaluable making the whole process worry free. Cabinco placed their faith in us that we would achieve our fundraising goals and we in turn placed our faith in them to produce the perfect building and grounds for our 2 to 5 year olds to learn and play in.

The Committee and Staff of St. Michael's Pre-school thank all of the Cabinco team and would not hesitate in recommending them, in fact we already have to one local school! And the children, well they just love their new pre-school home from home.

With thanks from all at St. Michael's Pre-school.
